

# Printer - DNP DI-RS1 / DS-RX1

Our DNP/OEM printers work fast, reliable and are made for tough assignments. The high print capacity and compact size of the printer will impress you - the combination of ease of use with high quality instant photos will make your customers happy.

## A True Workhorse

All of DNP's dye-sublimation expertise in an affordable printer with economic media. Designed for on-site event photography use, the printer is able to output 700 photos sized 4x6" in a single run. Of course, you can also use this set for venues such as hotels, family entertainment centers, etc. with great success.

The DI-RS1 and DS-RX1 are the cost effective and easy-to-use solutions for integrated kiosks and photo professionals.
